

The email sent to potential participants only includes the following:

Subject: Participants wanted for VR study!

Dear students,

We are recruiting participants for a paid, hour-long research study investigating how electroencephalogram (EEG) can be used in virtual reality (VR) for selection. Participants will be wearing a VR and EEG headset while completing tasks in VR.

Participants are required to meet the criteria below. Participants will partake in the study in the ISUE Research Lab at the UCF main campus (HEC 208 – Behind the Engineering Building).

The following requirements must be met to participant in this study:

- *Participants must be 18 years or older.*
- *Normal (20/20) or corrected to normal vision and hearing.*
- *Must speak and understand English.*
- *No previous history of simulator sickness.*
- *Has ability to walk, extend both arms, and use hands.*

Each individual may only register once for the study. At the end of the study, participants will receive \$15 in cash upon completion of all study activities.
